NEW WINDSHIELD LIGHT ARRAYS!

Super-LED[®] motorcycle touring box warning system.

At Whelen Engineering, we've taken a long history of working with Law Enforcement, added a reputation for leading the industry with innovative lighting products and designed a superior lighting and siren system for your motorcycle. Super tough, super bright LED warning provides all the punch of strobe but is longer lasting, moisture and vibration resistant and lower in current draw.

Harley-Davidson[®] motorcycle systems provide maximum protection to the front, rear and sides of your bike, keeping you visible at 360°. Warning package includes molded touring box with left hand, right hand or rear opening, terminal block with fuses, 12 VDC receptacles, Strip-Lite[™] brake/tail with amber turn lighthouse, six M4 Series Linear Super-LED lighthoods mounted on back and sides of touring box (available with split LED colors).

Motorcycle Systems

- **M4B6R** Six M4 Series Right (Curb Side) Opening
- **M4B6L** Six M4 Series Left (Road Side) Opening
- **M4B6B** Six M4 Series Rear Opening
